August 9, 2009

Dear Brethren:

The month of July reminds my family and me more of our native Country, Egypt. It has been warm in Lubbock. Temperatures have soared to as much as 106 degrees. My family and I have enjoyed the warmth; however, it has been challenging to most of my associates.

God continues to bless my family and me richly. Our health has been good except our son Andrew was bitten with a poison spider. His leg swelled and we had to take him to the doctor at the emergency room of Lubbock's Children Hospital. After a plan of antibiotics, he gradually overcame the bite. God also blessed Hala and me in pursuing our drivers' license. We still are making strides of reaching our goal of securing legal opportunity of driving in the state of Texas without our foreign status of drivers' licenses. God has blessed my family and me in some needed recreational time as a family. God blessed me personally as I engaged in study of the God's Scheme of Redemption through correspondence from Sunset's curriculum. God truly is great!

Summer has ended! This week, I began the fall term at Sunset! With anticipation, I am ready to explore more truths from God's Word. I look forward to studying Christian Evidences by Ed Wharton and a course called "Life & Teaching Jesus 1" with Charles Speer and all of the other courses. I also look forward to the time of being with fellow students. That is always a rich and learning experience.

My children will begin a new year. They learned so much since last October. Even though they adjusted well and made great progress last year, my wife and I are somewhat apprehensive of their fears. We trust God to make the circumstances enjoyable and conducive for our ultimate growth in Jesus in the upcoming year. Please keep this adjustment for all of us in your prayers. This is one of our greatest challenges. When the children are sad, it affects both Hala and me.

You have been great partners in our training. We humbly thank you for your prayers and your support that furnish our needs. God has supplied most of our monthly support. Others still are interested and willing to supply what they can. We await decisions from a few who have expressed a desire to help. Know that your help collectively make it possible for Hala, Joly, Andrew, and me to embark upon our mission of being equipped to fulfill God's mission. May God richly bless you as you manifest your love toward Him, toward my family and me, and to the lost of the world. Thanks so much!

With praise and thanksgiving,

Alfred Habashy and family
